

USA REALTY

Mislead Seller's

Often times sellers are mislead by an agent who will tell you what they *think* the home will sell for.

I'm determined to make sure you have enough information to determine the highest selling price possible.

Solution – Market Analysis

1. Research - Active, Sold, Pending, and expired properties.

2. Then present the information to you so that we can strategically get the highest price, in the quickest possible timeline.
